

Argano Copilot Studio Agents

Empowering Clients with AI Agents
Without the Complexity

AI Transformation

Accelerate your journey to AI-powered productivity with Copilot Studio Agents, delivered your way. Choose between our templated quick-start or fully customized approach to meet your organization's unique needs.

Who is this for?

Organizations looking to:

- Automate repetitive processes quickly
- Enhance employee or customer self-service
- Validate AI use cases in 2 weeks with low risk
- Scale innovation without complexity
- Modernize Supply Chain, HR, Finance, IT, or Customer Service workflows with minimal investment

Choose Your Path

Start with a Templated Argano Agent

Rapid deployment using proven Argano templates for common customer service, IT and Enterprise Resource Planning business scenarios. View our list of Argano Agents [here](#).

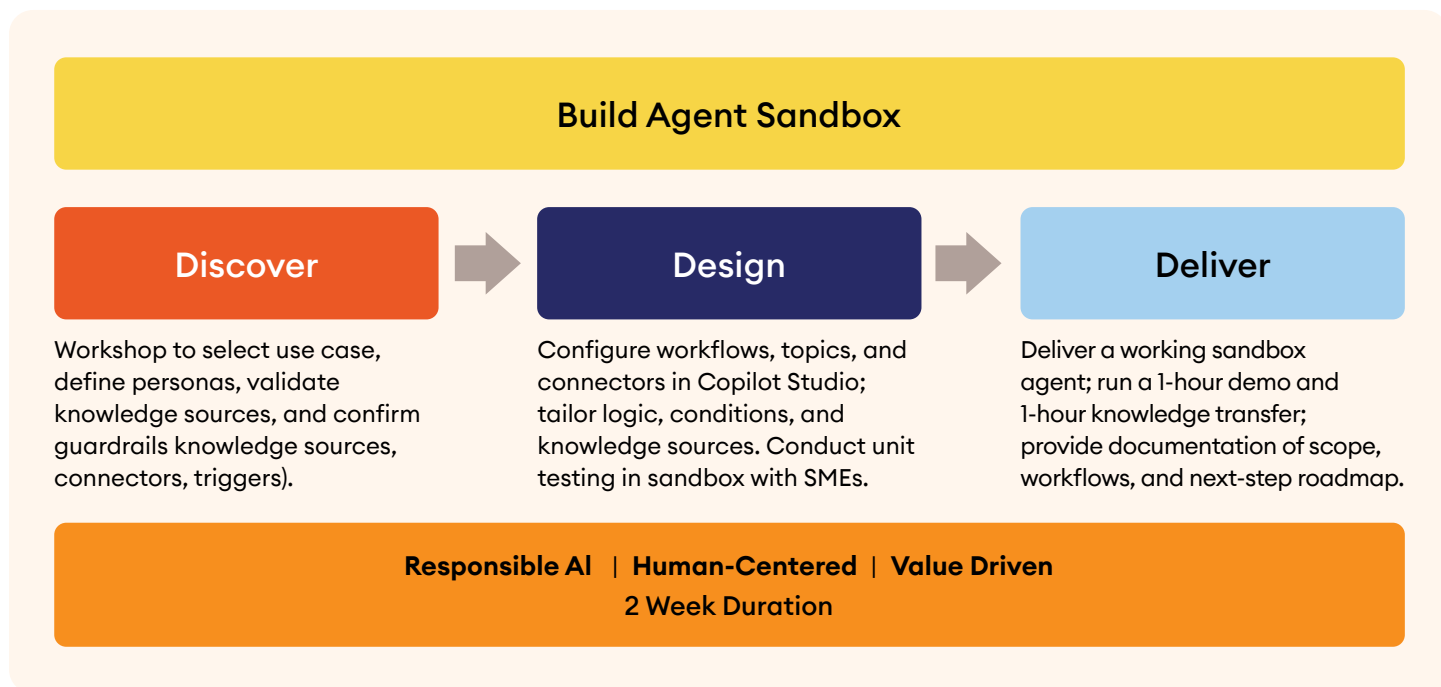

Build a Tailored Copilot Studio Agent

End-to-end design and build for your unique workflows, personas, knowledge sources and business processes while still following sandbox guardrails.

Benefits

- **Faster time to value:** Go from idea to working agent in just two weeks
- **Safe and secure:** Sandbox-only deployment ensures zero production disruption
- **Tailored to you:** Start from proven Argano templates or design a custom workflow within guardrails
- **Boost productivity:** Intelligent AI tools increase team productivity by at least 30%
- **Clear next step:** Pilot in sandbox now, expand to production when ready

How It Works: The Argano 3D Approach

Why Choose Argano?

Simplicity

Predefined scoping ensures fast delivery without hidden complexity

Security & Governance

Sandbox build leverages Microsoft-native data privacy and compliance controls

Business Value

Low-risk pilots designed to validate ROL, adoption, and measurable outcomes
