

Contingency Payroll Services

Payroll backup when it matters most

Argano's Contingency Payroll Processing Services provide flexible, on-demand support to protect payroll continuity and reduce risk. Designed for organizations that primarily manage payroll internally, this service gives you a trusted partner ready to step in during planned coverage gaps or unexpected disruptions.

Built for Infor and UKG platforms, Argano serves as your payroll safety net, ensuring payroll is processed accurately, compliantly, and on time, even when the unexpected happens.

How it works

Argano partners with your team to understand and document your payroll processes in advance, enabling a fast, confident transition when support is needed, without the cost or commitment of full payroll outsourcing.

Why Argano

Argano combines deep platform expertise, documented processes, and experienced payroll professionals who can step in quickly without disrupting your operations. We help minimize risk, prevent payroll delays, and protect employee trust during critical moments.

Flexible Support with Scheduled Contingent Payroll

Proactive backup coverage with a quarterly or semiannual processing cadence to keep Argano familiar with your payroll and ready to step in at a moment's notice.
