

Agentforce Revenue Management

Unify product-to-cash on a single platform

With Agentforce Revenue Management (ARM), Salesforce has created a powerful platform on which to build flexible, scalable, enterprise-scale solutions that can help your business realize the benefits of organization-wide revenue transformation. Streamline this complex process by working with Argano's Salesforce consulting experts to leverage proven frameworks, methodologies, and pre-defined offerings.

Top ARM features

- Product catalog management
- Price management
- Transaction management
- Product configurator
- Contract lifecycle management
- Business rules engine
- OmniStudio

Powerful capabilities to handle

- Complex use cases and business rules
- Highly customized CPQ processes
- High transaction volumes and large orders and quotes
- Omnichannel buying and selling
- Advanced order management
- Selling products/services based on consumption

Benefits:

- Built on Core Salesforce Platform; scales to meet enterprise-grade use cases
- API-first architecture enabling flexibility, extensibility, and bespoke omnichannel buying journeys
- Supports various payment models such as subscriptions, usage, and consumption-based services
- AI-ready to optimize product-to-cash lifecycle with Agentforce 360 and AI-powered selling motions
- Accelerates sales cycles with centralized product catalog and dynamic pricing engine
- Robust out-of-the-box functionality promotes standardization and reduces potential technical debt
