

# Cloud Architecture and Strategy

Strategic cloud solutions that drive measurable ROI

The cloud is the backbone of modern business—enabling agility, scalability, and continuous innovation. Argano helps you navigate today’s complexities by developing a cloud strategy and operating model tailored to your goals. We modernize your business with secure, scalable, and cost-effective solutions that support high-performance operations and AI readiness. From infrastructure to intelligence, we empower you to unlock the full potential of the cloud—driving transformation, improving efficiency, and delivering actionable insights that fuel long-term growth.

## Client Success

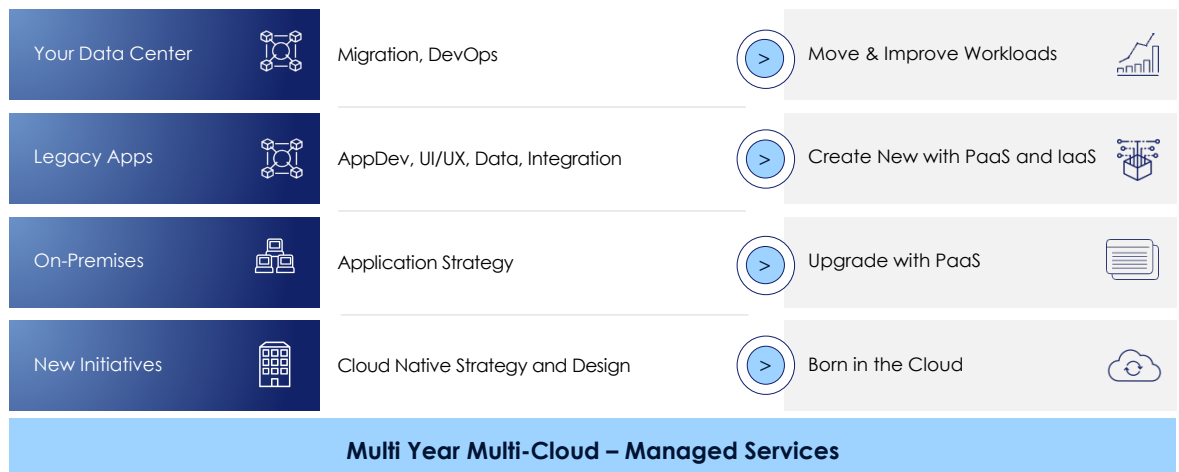

**\$1M** in Licensing Cost Savings  
with Strategic Cloud  
Modernization

A prominent public research university located in Florida partnered with Argano to modernize its integration strategy by transitioning from MuleSoft to Azure-native services. The move streamlined operations, enhanced scalability, and resulted in over \$1 million in annual licensing savings—demonstrating the value of a tailored, cloud-agnostic modernization approach.

## Benefits:

- **Faster Outcomes** – Accelerate cloud adoption with clear, measurable results
- **Cloud Flexibility** – Seamlessly operate across AWS, Azure, Oracle, and GCP
- **Smarter Spending** – Reduce costs and boost return on investment
- **Built-In Security** – Ensure compliance and 24/7 monitoring from the start
- **Scalable by Design** – Modern, future-ready architecture aligned to your goals

## Paths to the Cloud

## Cloud Enablement Framework

### Cloud Strategy & Readiness Assessment

We assess your existing IT environment, align with your business objectives, and identify the most suitable cloud model—whether IaaS, PaaS, or SaaS. The outcome is a strategic, ROI-focused roadmap with clear modernization milestones.

### Cloud Architecture & Implementation

We architect and deploy scalable, secure, and agile solutions—whether cloud-native, hybrid, or multi-cloud. From application modernization to DevOps and automated migrations, we accelerate delivery with proven frameworks and best practices.

### Cloud Managed Services

Our team provides 24x7 multi-cloud support, ensuring performance optimization, cost efficiency, and proactive security. Beyond maintenance, we continuously evolve your cloud environment through innovation and strategic guidance.
