

Managed Services for Salesforce

Optimize Salesforce for your business and maximize ROI

Are you spending too much time managing technology updates and fixes? As your business grows, so do the complexities of your IT solutions and infrastructure. Let Argano do the heavy lifting and move from “break-fix” support towards a strategic approach to maintaining your technology environment. With Managed Services from Argano 4 Salesforce, you will have peace of mind that your Salesforce environment is always up to date, running at peak efficiency, and providing maximum value to your business. Extend your team by leveraging ours for Salesforce development, configuration, solution design, and administration.

Optimize your technology

Simplify your system upgrades and ensure you have the latest version installed so you can take advantage of deeper capabilities and maximize all Salesforce has to offer.

Reduce IT spend

Get access to expert solution knowledge and industry expertise to maintain your network without the need for costly technology updates or high up-front costs.

Simplify HR

Hiring and retaining experienced Salesforce talent is a constant challenge and a drain on your limited resources. Outsource it to Argano to streamline talent management.

Avoid downtime

Minimize costly downtime by leveraging a team of solution experts who can identify and manage potential risks and prevent them from happening in the first place.

Benefits:

- Optimize your IT environment
- Free up IT resources to focus on value-add activities
- Speed up problem resolution and reduce downtime
- Better predict IT spend and improve ROI
- Scale support as your business grows

Argano 4 Salesforce Core Competencies:

- Revenue Cloud
- Sales Cloud
- Service Cloud
- Field Service
- Experience Cloud
- Manufacturing Cloud
- Lightning Platform
- Mobile Publisher
- MuleSoft
- Tableau
