

# Boomi

Connecting systems, data, and people across the enterprise

Leverage the Boomi platform to streamline, automate, and modernize your operations. Our offerings include strategy, integration, data intelligence, automation, and AI orchestration. With Boomi's Unified Data Intelligence (UDI) and DataHub, we enable your business to discover, catalog, and trace data lineage—creating a reliable foundation for AI. By eliminating data silos and enhancing data quality, we unlock the potential for intelligent automation, advanced analytics, and seamlessly connected operations.

## Integration & Connectivity

- Cloud, on-prem, and hybrid integration
- Supports major platforms and custom systems
- Prebuilt connectors and templates
- Real-time, batch, and event-based integration
- AWS, Salesforce, SAP, NetSuite, Workday, Oracle, and custom systems

## API & EDI Management

- End-to-end API lifecycle management
- Secure API gateway with policy enforcement
- EDI partner onboarding with X12/EDIFACT support
- External API enablement and B2B integration

## Data Intelligence & Governance

- Unified Data Intelligence (UDI)
- Centralized governance with Boomi DataHub
- Data cataloging, enrichment, and lineage
- Trusted foundation for AI, BI, and analytics

## Automation & Orchestration

- Business process and workflow automation
- Event-driven integrations and rule-based logic
- Robotic Process Automation (RPA) support
- Integration-enabled orchestration across ERP/CRM/HRIS
