 - Oracle Customer Connect report sharing center
 - Argano pre-built reporting library

Day One Go-Live Journey: Welcome to Oracle Cloud from Workday

Argano offers a Workday to Oracle Cloud HCM journey that gets pushed out to all employees on day one.

This journey is leveraged as a key change management tool as it helps guide your workforce through the new features that Oracle Cloud HCM brings, helps answer questions, and ensures that an employee's profile is complete and accurate.

Sample HCM Transactional Journeys

- | | |
|----------------------------------------|------------------------------------|
| • Promotion (Manager) | • Change salary (Manager) |
| • Transfer (Manager) | • Create job requisition (Manager) |
| • Termination (Manager) | • Resignation (Employee) |
| • Initiate leave of absence (Employee) | • Termination (Manager) |

Key Offerings

- **Gold "Translation" Package**
Organizations that already have standardized business processes (no redesign).
- **Platinum "Optimization" Package**
Organizations that have completed some level of transformation during their Workday implementation, but have not fully created business processes.
- **Diamond "Full Transformation" Package**
Organizations that are considering a move to Oracle Cloud HCM to make significant changes to business operations.

The modules included in scope will be determined by your current Workday deployment. Typically, a "like for like" approach will be followed, with the occasional additional module to be included when it serves as a business driver.
