

Get more from Microsoft 365 MUCH more

It's time to supercharge business productivity with Microsoft 365, Azure, and Argano

Microsoft 365 (M365) enables modern workplace efficiency by providing ALL business productivity tools under one roof.

- All Office applications: Word, PowerPoint, Excel, Outlook
- All collaboration and communications tools: Teams, SharePoint, Publisher, Exchange
- All storage, connectivity, and security tools: OneDrive, Intune, Access, Defender
- Key innovation and optimization tools: Process automation, accelerated end user solution development, AI and Copiloting

Argano and M365 have all you need to equip on-site and remote staff, create a more connected and effective workplace, and be ready to take on the uncertain future with the latest technology and capabilities.

How do you get started?

With Argano, a multiple Microsoft Partner of the Year award winner!

We'll transform your workplace with M365 complemented by expertise in Microsoft business applications (Dynamics—all editions), in low-code

development (Power Platform—all features), Azure (private, public, hybrid), and Managed Services.

In short, we'll lay the foundations and take you to the finish line of Digital Transformation.

Whether it's Excel, robotic process automation, threat protection, custom development, cloud application, or anything in the Microsoft ecosystem, Argano is your one stop shop.

M365

- Deployment, integration, and optimization
- Managed Services: training, support, change management, and more

Azure Infrastructure

- On-Prem to Azure Migration of AD Networks
- New deployments, integrations, and automations
- Managed services: Break/fix, proactive monitoring, and more
- Security: Defender, Purview Sentinel and Security center for Prevention and Threat protection

Benefits:

- Optimize access to and use of all Office applications
- Equip teams with secure systems for remote work
- Connect Office apps with Dynamics and more
- Create a more connected, more effective workplace

Business applications:

- Dynamics 365: Optimize operations, fuel customer engagement, improve data collection and analysis
- Power Platform: Lean on our expertise, or create your own Power Platform "Center of Excellence"
