MuleSoft Anypoint Partner Manager Workshop

Driving efficiency, visibility, and partner growth across your ecosystem

Are you facing delays in partner onboarding, limited visibility into transactions, or rising EDI maintenance costs? We can help you tackle these issues head-on with MuleSoft's Anypoint Partner Manager (APM), a cloud-native, low-code platform for effortless B2B integration. APM streamlines partner onboarding, improves transaction tracking, and cuts down on operational complexity, all while supporting both EDI and API-based exchanges.

Schedule a complimentary workshop to evaluate your existing EDI platform, uncover potential limitations, and explore a modernized future-state architecture powered by MuleSoft's Anypoint Partner Manager (APM).
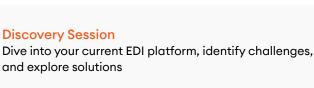

Workshop Details

Discovery Session
Dive into your current EDI platform, identify challenges, and explore solutions

Findings & Demo
Participate in interactive Q&A, polls, and live demos to highlight key insights

Roadmap
Outline a clear path to enhance your B2B processes with MuleSoft's APM

Benefits

- **Accelerated Partner Onboarding:** Streamline integration time and bring new EDI and non-EDI partners online faster

- **Improved Transaction Visibility:** Track every transaction in real time with end-to-end traceability

- **Enhanced Customer Service:** Equip agents with real-time, API-powered actions for faster resolution

- **Reduced EDI Maintenance Costs:** Minimize overhead with a modern, scalable, low-maintenance platform

- **Greater Integration:** Support both EDI and API-based transactions without friction
