

# Approvals Pro

## Simplifying workflow processes, reviews and approvals to drive productivity

The benefits of a mobile workforce are plentiful. But the challenges usually boil down to one: MANAGEMENT.

Managing workflows of a distributed staff working from home or multiple worksites, and through multiple platforms, devices, and applications is often a nightmare.

This is why we created Approvals Pro, a software application specific to Microsoft Dynamics 365 Finance and Microsoft Dynamics 365 Supply Chain Management that enables team and business leaders to both see the big picture and take the right steps in managing workflows, approvals, and more – right from their own mobile devices.

No matter where your workflow data is coming from – and no matter who is transmitting it or what device they may be using – you can manage it all from the palm of your hand.

- Approve or reject workflow items from applications or email
- View workflow details required for approvals
- Spot and remove bottlenecks
- View attachments related to workflow items
- Stay entirely connected to financial systems and staff
- Filter by workflow item type
- Preserve workflow audit history
- Adhere to Dynamics 365 Finance and Dynamics 365 Supply Chain Management security parameters

### Stay on top of everything, from anywhere

Approvals Pro is a game-changer for leadership at the department, site, and

### Benefits:

- Improve operational efficiency through mass approval workflows, push notifications and reminders
- Enable a remote workforce or occasional Dynamics users to participate in workflows
- Stay secure – authenticated and authorized users only!

enterprise level because it meets you where you are. Request more information, review audit history and respond to updates submitted via email or other applications, and enjoy a one-stop approval workflow life-cycle management solution from wherever you may be.

Eliminate the confusion of managing multiple emails or applications with a mobile, simplified workflow management approval tool for all workflows in Dynamics 365 Finance and Dynamics 365 Supply Chain Management.
