

SAP Master Data Governance Bundle

Drive data integrity and establish a robust data governance framework

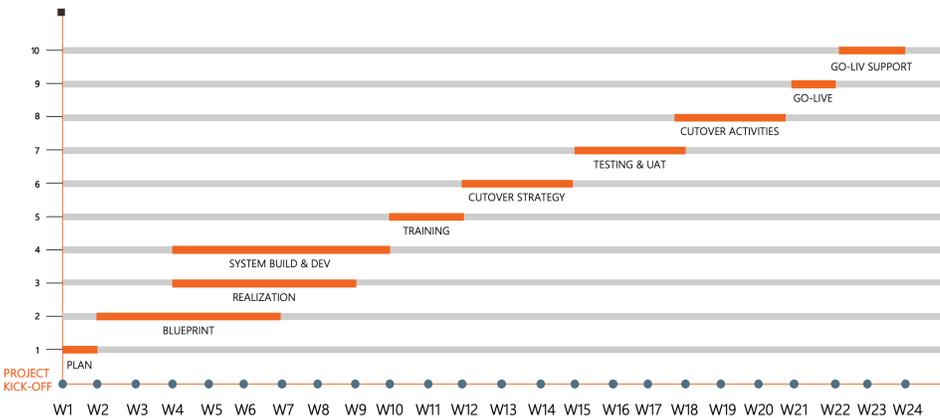

Elevate your data governance capabilities with Argano Master Data Governance Bundle. This comprehensive master data management solution enables domain-specific governance, ensuring the effective creation, distribution, consolidation, and modification of master data across your entire operational structure. SAP MDG guarantees data integrity across both SAP and non-SAP systems, empowering optimized business processes and boosting productivity with reliable data.

Benefits:

- Implement pre-defined SAP MDG solutions aligned with SAP's best practices, customizable to adapt to your unique business needs
- Optimize business workflows with rule-based sequential and parallel workflows
- Establish validation and derivation rules to ensure data quality in accordance with your business requirements
- Achieve a focused, efficient, and cost-effective implementation
- Accelerate your digital transformation by adopting a comprehensive data management approach

Timeline & Cost:

25 Weeks **Fixed Scope**
 Implementation Time Implementation Cost

Holistic Approach

Argano will evaluate the maturity of your current data governance competency and implement a tailored approach that focuses on people, processes, and technologies.

Diverse MDG Infrastructure

Utilize prepackaged solutions with MDG-Business Partner(BP)/Material(M) as key accelerators implementations. Our team offers customized presentations and proof-of-concepts.

End-to-End Support

Our team will leverage SAP MDG best practices and accelerators throughout the project lifecycle, spanning from implementation planning to go-live, roll-out, and ongoing support.
