

Boomi and SAP

A powerful solution for modernizing your ERP system

Unlock the full potential of your SAP environment with Boomi. As a trusted partner with deep experience in SAP and Boomi implementations, Argano helps organizations accelerate ERP integration through low-code, event-driven solutions that reduce reliance on custom ABAP and multiple connectors. This partnership enables you to connect systems, data, and people across your enterprise, creating a reliable foundation for intelligent automation and advanced analytics. By eliminating data silos and enhancing data quality, you can unlock the potential for seamlessly connected operations.

Seamless SAP Connectivity

Connect SAP with your broader application landscape using Boomi's native support for BAPI and OData. Eliminate manual workflows, reduce custom coding, and simplify enterprise integration by running everything on Boomi.

Boomi for SAP Add-In

Transform SAP integrations with Boomi for SAP—an SAP add-in. Eliminate custom ABAP with a low-code API guildler inside SAP, enable event-driven integrations, and streamline bulk data migrations beyond OData and IDocs.

Unified Integration Platform and AI Readiness

Connect SAP to your entire application landscape with Boomi's independent iPaaS. Synchronize and master data across ERP, CRM, HCM, and every critical business system to unlock visibility, agility, and the foundation for AI-driven insights.

Benefits

- **Accelerated ERP integration:** Deploy SAP connections faster with low-code design, reducing time and cost compared to traditional development
- **Reduced complexity:** Eliminate custom ABAP and multiple connectors with streamlined, event-driven integrations built directly in SAP
- **Improved data reliability:** Unify operational, customer, and product data into a single source of truth for accurate reporting and insights
- **Stronger supply chain visibility:** Connect SAP with logistics and partner systems to enhance inventory accuracy and fulfillment speed
