

Argano & Oracle Customer Experience

Deliver customer experiences that drive enhanced engagement and revenue

Your Customer Experience (CX) applications are the drivers of meaningful and engaging customer and prospect interactions. We are here to help you implement and integrate them with your front- and back-office solutions, ensuring a cohesive and efficient experience.

Building on extensive solution expertise, we help you get the most out of your Oracle investment. Whether you are looking for revenue transformation with Oracle CPQ, Commerce for CPQ, and Subscription Management; service transformation with Oracle Fusion Service, or to integrate Field Service with SCM, we help you succeed.

Oracle CPQ: Streamlines the purchasing process, allowing sales teams to build configurations (including via mobile), generate quotes, and quickly turn them into orders.

Oracle Commerce for CPQ: Delivers a unified experience, enabling customers to search, view tailored recommendations, and complete purchase effortlessly.

Oracle Subscription Management: Automates processes to boost customer lifetime value, enabling both self-service and assisted processes for clients to get what they need, when they need it.

Oracle CX Sales/Sales Performance Management: Improves sales team productivity to drive revenue efficiently and effectively.

Oracle Fusion Service: Supports call centers and field operations, covering customer support, service requests, service planning, execution, and warranty management.

Leverage our expertise and advanced Oracle CX applications to provide exceptional customer experiences.

Contact us to get started!
