

Project Management as a Service (PMaaS)

In today's world, organizations require an adaptable approach to Project Management to support mission-critical outcomes for current or future portfolios. This approach must be partner-centric focused. Argano's PMaaS provides a cost-effective and flexible solution when you need extra project support. It allows you to achieve your goals and objectives with the help and expertise of experts who understand your project and its unique goals.

Expert support when and where it matters most

Argano's certified project managers assist your team during crucial stages of your program or project. Through our proprietary tools and templates, our team leverages cloud software and management expertise along with insights into SaaS technology trends to understand your unique project and business objectives.

Our goal is to be embedded into your team and operate as one, whether supporting your team on a particular project phase or a set duration of time.

Predictable, consistent monthly cost

Through Argano's Managed Services, PMaaS monthly cost structure allows you to access specialized resources without traditional contracts' constraints, saving on overall project costs.

Argano will tailor this service based on your specific needs and timeframe.
