

Payroll Processing Services

Accurate. Compliant. Reliable.

Argano delivers flexible Payroll Processing Services designed to alleviate operational burdens and bring confidence to every payroll cycle. Supporting both Infor and UKG platforms, we combine deep system expertise with proven processes to ensure payroll runs accurately, compliantly, and on time. Our collaborative delivery model manages payroll complexity while keeping your team in control through final review and approval. The result: greater stability, improved efficiency, and confidence in every payroll cycle, all backed by predictable delivery and robust quality controls.

Payroll Processing Service Options

Full Payroll Processing Services

Delivered as an extension of your internal team. Ideal for organizations seeking to fully outsource payroll while maintaining visibility and control.

Contingency Processing Services

Scheduled or on-demand support designed to reduce risk and ensure continuity. Ideal for organizations that manage payroll internally but need a trusted partner for backup coverage.

Built for Payroll Confidence

Argano also offers Payroll Consulting to strengthen and optimize payroll operations. Our experts provide best-practice guidance, process improvement, and configuration support to enhance accuracy, efficiency, and compliance.

Whether you need full payroll outsourcing, contingent support, or expert advisory services, Argano delivers trusted payroll expertise across Infor and UKG environments.
