

Change Management for Infor

Argano's Change Management drives value across organizational initiatives toward sustainable success by prioritizing the human aspect of change. Powered by proprietary templates, tools, and expertise, and complemented by the proven Prosci® methodology framework, our team of change management experts delivers tailored and scalable solutions that yield tangible results. Together, we bridge the gap between vision and transformation, empowering your workforce to thrive amidst change.

Drive value across organizational initiatives for sustainable success

Change is inevitable, but successfully navigating change can be a challenging task for any organization. When equipping your business with the right tools and strategies, you can proactively manage and drive change initiatives, ensure smooth transitions, engage employees, and achieve success.

Our customized approach

We provide a unique and dedicated team of Certified Change Management Professionals that guide you throughout each step of the project by tailoring the solutions and communications based on assessment results.

A cost effective solution

Effective change management can meet objectives, stick to a schedule, and stay on budget with our proprietary templates and tools. Our solution ensures a streamlined and cost-efficient path to success.
